

**UNI Equivalents for Courses from Des Moines Area Community College
(Prepared from the 2005-2006 DMACC Catalog)**

UNI equivalents are usually designated by six numbers, separated by a colon. The numbers before the colon refer to the department or area of the course; the numbers after the colon refer to the specific course. For example, in a course designated 400:001 the "400" refers to the Department of Psychology and the "001" refers to the course.

When an equivalent is listed as 400:XX_ (e.g. 400:XXA), the letters after the colon indicate that the content of the psychology course being accepted for transfer is not similar enough in content to any psychology course offered by UNI to be given a specific course equivalent. A transfer equivalent is recorded as XXX:XXZ, with no designated department or course number, when a course accepted for transfer does not seem to fit into any department at the University. Even though a course does not have an exact UNI equivalent, it is still approved for transfer credit.

If a course satisfies a Liberal Arts Core (LAC) requirement, the category is indicated in the LAC column. **If students are trying to satisfy requirements in older UNI General Education Programs, they should consult the UNI Admissions Office.**

Important Information Regarding Transfer Credit

Two Year College Credit

Not more than 65 semester hours from a two-year college may be applied toward the UNI degree. Additional work is entered on your record and may be used to meet specific course requirements but is not mathematically included in degree totals.

Required Courses

Course work taken at other institutions will satisfy specified major and minor requirements when said courses are evaluated as exact equivalents of courses fixed in major and minor requirements at UNI. Course work taken at other institutions will be applied to UNI Liberal Arts Core where appropriate.

Failed Courses

A course that has been failed must be repeated in an on-campus class, a class taken in residence at an accredited institution, in order to earn credit for the course. A course that has been failed may not be repeated by correspondence, nor may credit be established by examination for a course which has been taken previously and failed.

Scholarship

1. A student working toward the bachelor's degree with licensure to teach must achieve a cumulative grade index in all course work attempted, **at this university and elsewhere**, of at least 2.50 to be recommended for graduation. The student must also achieve a cumulative grade index of 2.50 on all work attempted at the University of Northern Iowa.
2. A student working toward the bachelor's degree (without licensure) must achieve a cumulative grade index in all work attempted, **at this university and elsewhere**, of at least 2.00 to be recommended for graduation; he must also achieve a cumulative grade index of 2.00 on all work attempted at the University of Northern Iowa.

Note: If a student has failed to be recommended for graduation because of deficiencies in scholarship, the deficiencies may be removed only by work taken in residence.

Credit/No Credit Grading

1. Not more than 22 hours of ungraded course work in addition to courses authorized to be offered only for ungraded credit may be taken toward any bachelor's degree.
2. Ungraded work may not be applied to work required for a major or minor except with the consent of the head of the department in which the course is offered.
3. The Credit/No Credit system may not be used with Credit by Examination, Extension, or Correspondence courses.

Advanced Courses

At least 10 hours of work in a major in courses numbered 100-199 must be taken at this university.

Residence

1. Not more than 32 semester hours earned in correspondence, extension, radio, or television courses may be used toward graduation.
2. At least 36 weeks shall be spent in residence at this university while earning in such residence at least 32 hours of credit, of which 20 hours must be earned in the junior and senior years.
3. At least 32 hours of credit shall be earned in the junior and senior years in courses at this university. This total may include non-residence credit.
4. The last semester or full summer session before graduation shall be spent in residence at this university.
